Composite Wall Structure

Composite Floor Structure

# showers

## Showers

Choose Best Bath Systems for your walk-in shower surrounds and you'll get the ultimate in safety, durability and beauty. From the leak-proof wall-to-wall and wall-to-base seams, to the tough composite wall structure with an attractive gelcoat finish, Best Bath sets the standards for accessible, stunning showers.

- Fully wood backed wall system
- Safety hardware can be factory installed saving time on the jobsite
- Locking water tight corners
- Multiple threshold heights for all applications
- Snap-joint assembly for easy installation and a clean look
- Customizable accent colors

## Shower Pans

Increase your design options with Best Bath shower pans. Our shower pans are built to last and are available in a full range of sizes and thresholds, including curbed, low-step, trench drain and barrier free heights. Best Bath shower pans allow for the use of tile walls without the worry and maintenance of tile floors.

- Durable to withstand heavy commercial use
- Your choice of drain positions
- Pre-leveled at the factory and requires no mud setting

## Tub Showers

Offering style and functionality, Best Bath tub and shower combinations are a great fit for commercial projects. With an extensive line of tub showers, we have solutions that work in a variety of applications and facilities.

- Custom color accents make a statement and offer décor flexibility
- Laminated wood-reinforced walls allow for grab bars to be easily installed anywhere in the shower without greenboard or additional structural bracing

# tubs

## Walk-In/Slide-InTubs

The epitome of safe, soothing and accessible bathing, Best Bath walk-in tubs and the **ADL Spa** offer unparalleled features and innovation. Every walk-in tub features a strong stainless steel latch that is simple to use, and can be easily adjusted using the lever. Plus, all tubs have pre-installed plumbing with all connect lines, so professional installation is quick and straightforward. The ADL Spa offers easy accessibility from wheelchairs and the cabinet base provides clearance for a wheeled lift making it an ideal solution for commercial applications.

- Heated seat comes standard in every walk-in tub
- Optional Ozone sanitation system
- Comfortable contoured seat, grab bar and a non-skid floor
- Therapeutic air/water jet combo available
- Features the new Syllent Pump—the quietest pump in the market
- Limited lifetime warranty on the tub and door seal

# innovation

## Unifloor

Take ease of use and care one step farther with **Unifloor**. This one-piece, seamless flooring solution offers simple installation and maintenance and requires no mud set or floor liners.

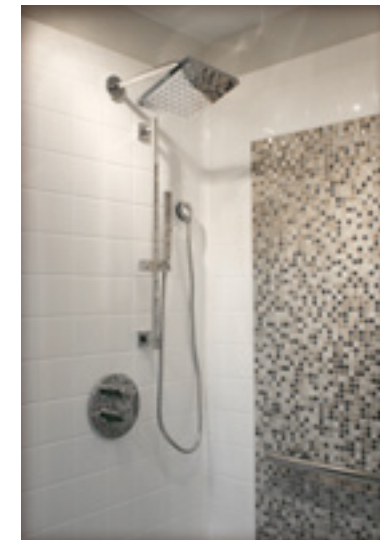

- Seamless design eliminates floor cracks, joints and seams
- Sloped design for constant drain
- Integrated custom design for your project
- Great option for commercial applications

## Designer Series

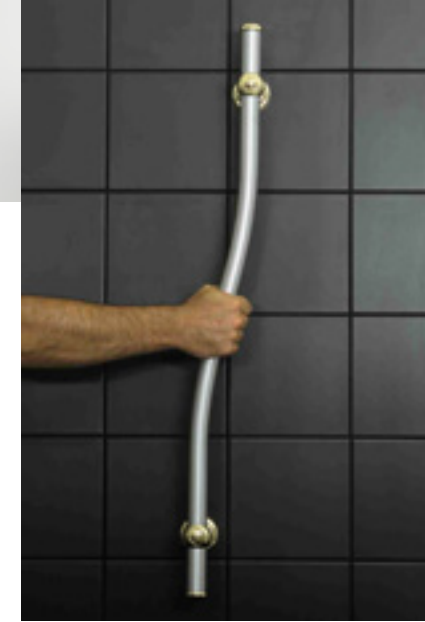

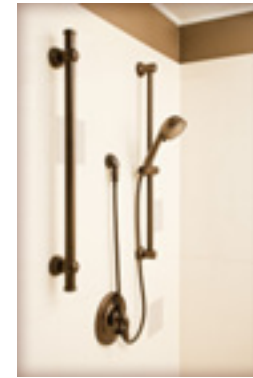

Who said accessibility has to be dull? Best Bath Systems Designer Series offers the customizable options you need to make showers a thing of beauty. Simply choose from a selection of our top selling showers, and we'll manufacture it

with **recessed panels**. You can fill these spaces with your choice of tile, such as colorful glass or ceramic, for a custom design to fit your project's style and décor. Tile installs quickly, is easy to maintain, and will not leak—eliminating the possibility of water damage.

## Custom Bathing Solutions

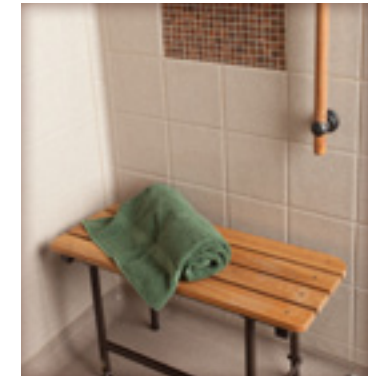

One size doesn't always fit all. A bath or shower that works for one project might be wrong for another. That's where we make you look good. As your partner, we can manufacture any bathing solution to your project's exact specifications. From sizing to functionality, and safety needs to aesthetics, your dedicated Best Bath Systems professional will work with you to ensure you get the right bath or shower—every time!

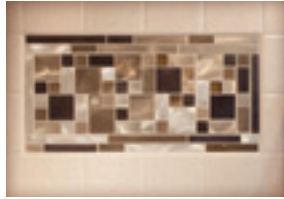

# accessories

No bath or shower is complete without the right accessories. Whether used for safety, functionality, or décor, Best Bath accessories perfectly accompany showers and tubs. Grab bars and wall-attached shower chairs can be securely installed anywhere in the unit without having to find studs. Soap dishes, no-caulk drains and window and flange trim kits make customizing easy. Best Bath's creative value engineering and adaptable bathing units take performance and style to the next level.

Accessibility, water containment and safety are paramount. That's why we created our weighted curtains and The **WaterStopper**, a collapsible rubber water dam that flexes for wheelchair access, yet immediately springs back to an upright position to prevent water running on to the bathroom floor and becoming a slip hazard.

## Why Best Bath?

Best Bath Systems offers innovative, high quality bathing systems for commercial projects. Our manufacturing capabilities provide you with the most extensive line of code compliant products and solutions. Just as important, the expertise, service and support you'll receive are simply unmatched.

Give us a call and let us prove what we can do for you. As your partner, we'll work with you to create the **perfect bathing solution** for your next project, **on time** and **on budget!**
