

Smart Choices in Shower Pans

Bestbath™ shower pans provide your commercial, multi-family or residential project with an innovative and cost-effective solution that will maintain its beauty and provide years of use. Our shower pans are designed to fit into almost any application and feature quick, easy installation to keep you on schedule and within budget.

Bestbath shower pans are available in an extensive range of sizes, colors and threshold heights including low-profile and curbed units. We know commercial projects can be unique which is why Bestbath thrives on providing design flexibility and can manufacture almost any type of custom shower pan needed for your specific applications. You will work with our experts to ensure your project meets code while building a truly stunning bathroom.

Shower Pans

For easy and precise installation, all Bestbath shower pans are pre-leveled at the factory, do not require mud setting, and are installed directly on to the subfloor. Not only is installation quick and efficient, but the durable, anti-slip gelcoat finish will last for years with minimal maintenance.

Unlike tile floors, Bestbath one-piece shower pans are durable and do not require costly maintenance. No more worrying about possible leaks and water damage. You can achieve a balance of beauty and utility when a Bestbath shower pan accompanies tile walls.

We have ADA- and ANSI-compliant options and the experts to help you select the ideal solution for your project. Our team is dedicated to working with you so

your project runs smoothly with just-in-time delivery and custom ship schedules.

With Bestbath you get personalized service with a dedicated representative. Shorter lead times, better service and no hassles are just a few of the benefits you'll receive from Bestbath. Combine this with our world-class products, and there's no problem we can't solve and no solution we can't provide for your next project.
